

Wireless Delivered Live Patient Transport Services

The Wireless Delivered solution has helped us streamline the business and improve service to our patients, it replaced our old inefficient paper based systems and has increased our accuracy of information to 100%.

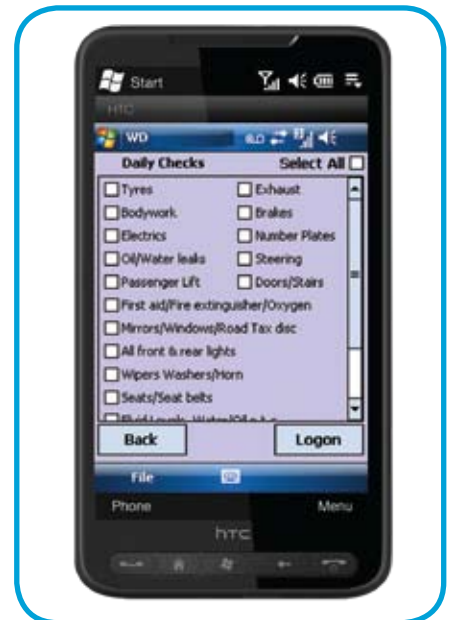

As an NHS trust we test the market from time to time and believe that the Wireless Delivered solution is still ahead of the game.

Damian Dixon
West Midlands Ambulance Service

Proven to work in many NHS organisations, saving time and money, improving efficiencies and the security of operations.

Features
